Detailed description of project						Type of services provided		
<p>Analysis of cross-border cooperation in each border area in terms of SWOT analysis, forecasting and capacity building modelling. A self-assessment tool for local communities was developed so to provide continuous assessment of cross-border cooperation. Gathered qualitative data were made operational into an analytical, dynamic model providing best-option strategies for cross-border cooperation development taking into consideration internal (i.e. socio economic, infrastructural, natural, etc) and external (i.e. institutional, IR, financing, IMC, etc) variable.</p>						<p>Analysis of cross-border cooperation in each border area in terms of SWOT analysis, forecasting and capacity building modelling.
