SMILEY

Social Mindedness In Learning community

www.smileyschool.eu

The main objective of the project was to promote the use of ICT in education
proposing a sociological approach to conflict resolution at School

5 Educational Contexts

(Great Britain, Italy, Poland, Romania and Turkey)

Consortium

5 types of skills:
1) Academic / Scientific
2) Technological
3) Entrepreneurial / Innovation / Creativity
4) Exchanges
5) Pilot schools

5 types of skills:

- 1) Academic/Scientific
- 2) Technological
- 3) Experts in dissemination/promotion
- 4) Evaluators
- 5) Pilot schools

- The SMILEY “numbers”
- 5 countries (Italy, Poland, Romania, Turkey, United Kingdom)
- 115 schools participating in the project
- 150 referring teachers
- 4973 students (10-16 years)

What is
Social Mindedness?

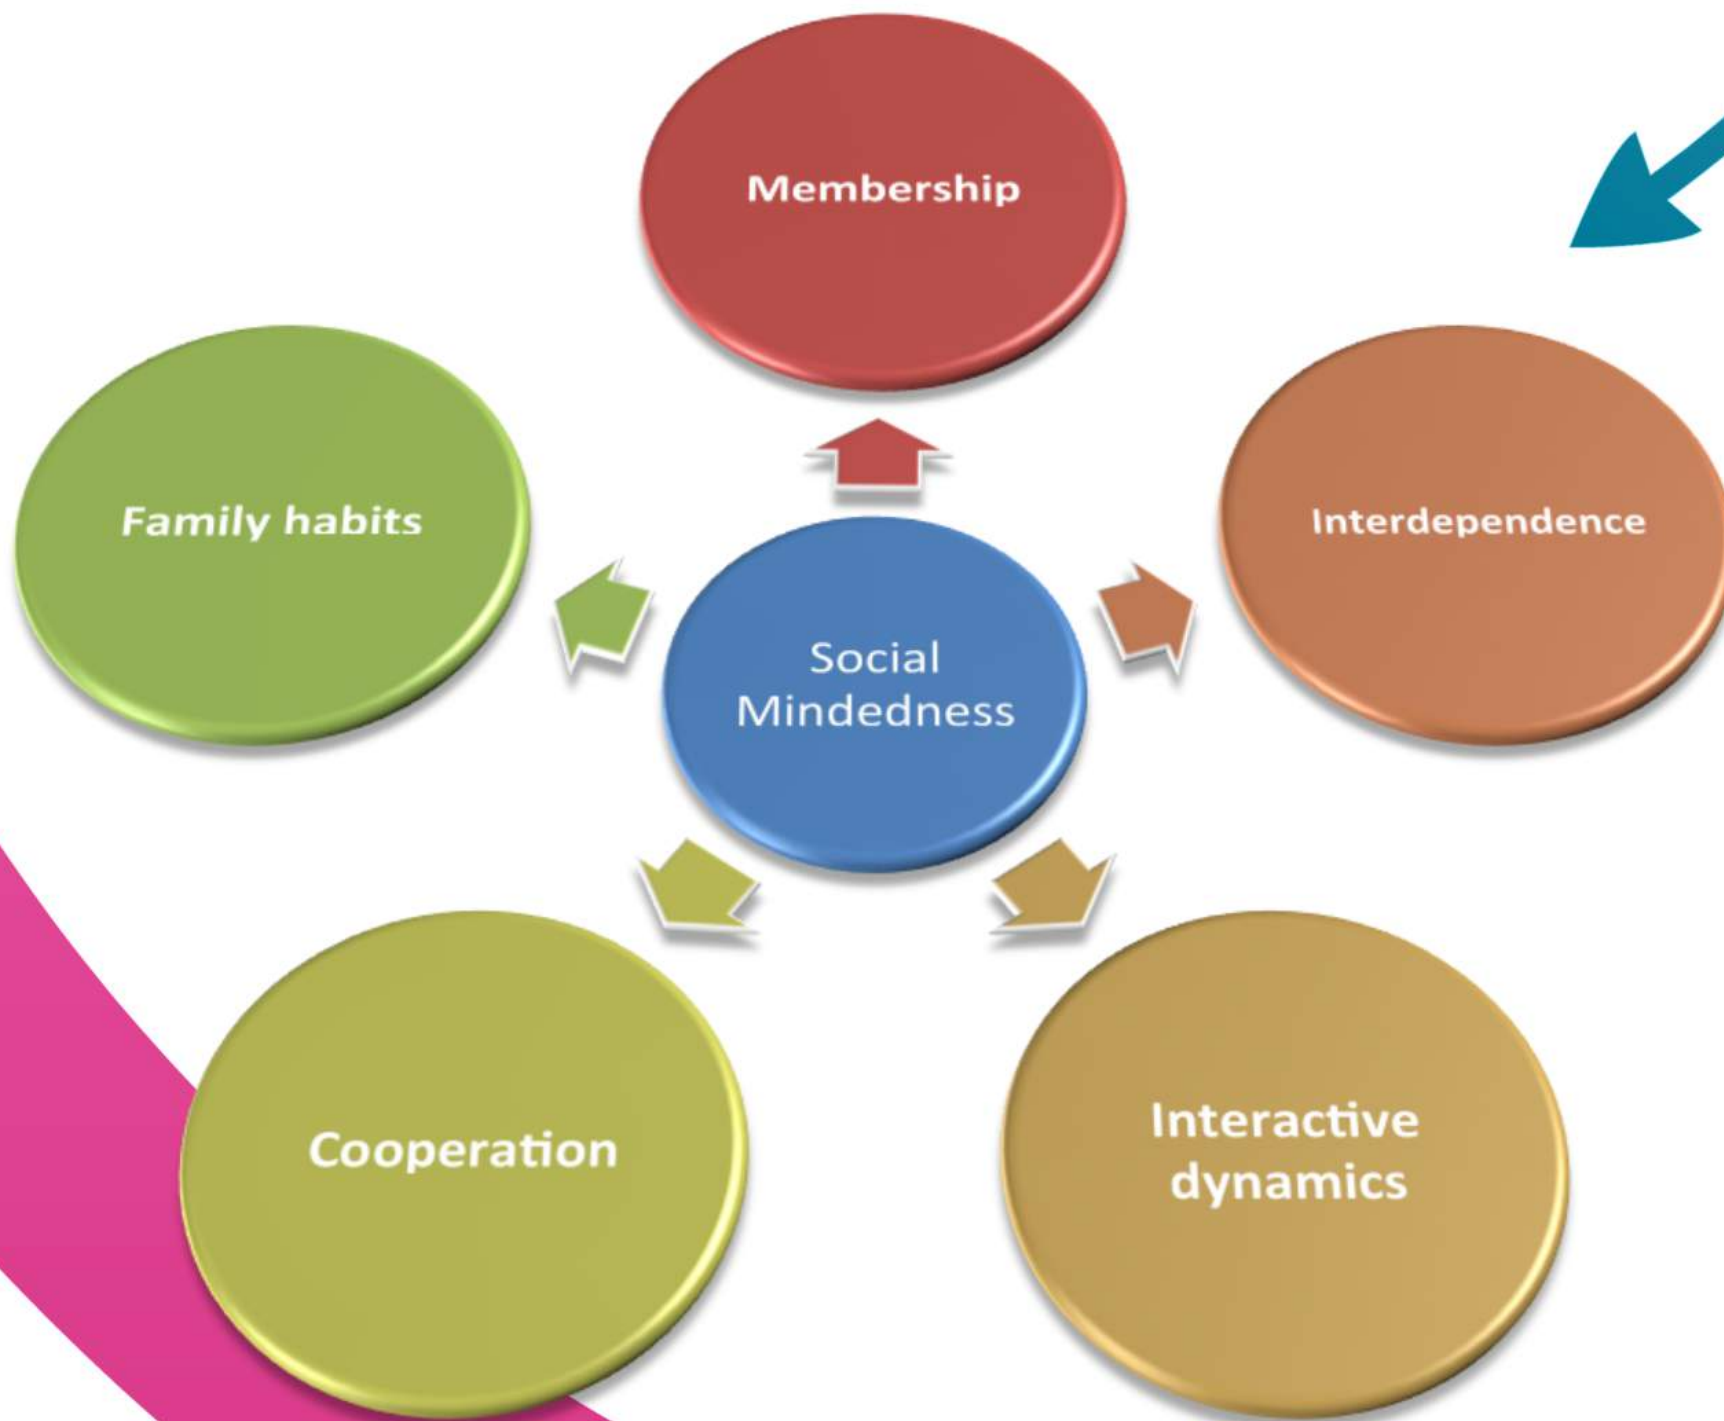

Social mindedness translate the connection between values and social competences that individuals put in practice to achieve integration, cohesion and sense of community.

Structural orientation of the Self towards relationship and intersubjective integration dynamics of which the individual and the community benefit in the daily life context

Ship of and it in t

liaison between individual relational domain (Self) and group relationships

The originality of SMILEY is based on its approach

Compared to the "classic" projects that deal with exclusion within the school context focusing on the individual-psychological dimension of the excluding subject (ie bullying)

SMILEY focuses its attention on avoiding that the school environment may originate exclusion practices

The Analytical Path

- Quantitative Survey;
- Questions during the Edu-GDR "YourTown";
- Dialogical re-contextualization;
- "Final" variables collected after the "online" and "offline" phases

Relational hypothesis

"SM is linked to the mutual influence of the individual cultural system - expressed by family habits - the sense of belonging to the context, the networks of relational interdependence and the dynamics of cooperation."

The diagram illustrates the Social Responsibility Model. At the center is a blue circle labeled "Social Responsibility". Five surrounding circles are connected to it by arrows: "Appropriateness" (red) at the top, "Sustainable Business" (orange) at the top right, "Economic Incentives" (yellow) at the bottom right, "Cooperation" (green) at the bottom left, and "Contractual Satisfaction" (light green) at the top left. A large blue arrow points downwards from the central circle.

 <h3>Mission one</h3> <p>Johnny Smithson and his friend Lucy are visiting the seaside. Find 6 things that might help them have a great time or make them wish they'd stayed at home.</p> <p>GO »</p>	 <h3>Mission two</h3> <p>Dr Demir is on her way to work at the hospital. First she has to drop her baby son at the Childcare Centre. Find 6 things that might be helpful for Dr Demir or that might be a problem for her or make her feel upset.</p> <p>GO »</p>
 <h3>Mission three</h3> <p>Mr & Mrs Bartolini have recently moved to Your Town and opened up a restaurant. Find 6 things near their home and their restaurant that could make them wish they hadn't moved here or could threaten their business or things that might make them feel welcome in Your Town.</p> <p>GO »</p>	 <h3>Mission four</h3> <p>Mrs Kowalska is taking her two young children to school. Find 6 things on Mrs Kowalska's route to school that may be a problem for her, which would make her or her children feel upset, or things that would make them feel happy.</p> <p>GO »</p>

Each mission (and related game events) is defined starting from the dimensions the concept of Social Mindedness

enigma
interactive

- The teacher carries out three key functions
- catalyze a dynamic of engaged learning
- allow students to acquire technical skills in using the SMILEY platform
- coordinate and stimulate the dialogical recontextualization phase

The scheme is Easy

See

Play

Learn

Discuss

Apply to
school
context

A close-up, black and white photograph of a computer keyboard. A pen is resting on the left side of the keyboard, with its tip pointing towards the bottom left. The background is a blurred view of the keyboard keys.

Dialogic Re-contextualisation

During the "offline" phase, the class that RI-CONTESTUALIZE the game events in the school environment thanks to a debate stimulated by the referent teacher

At the end of the
game session the
debate in the
classroom allows to
recontextualize
within the school
environment thanks
to the grid provided
to the referent
teacher

The Core Point:
the experience in the virtual environment is
a tool that can not replace the active and
REAL debate

Mission three

Mr & Mrs Bartolini have recently moved to Your Town and opened up a restaurant. Find 6 things near their home and their restaurant that could make them wish they hadn't moved here or could threaten their business or things that might make them feel welcome in Your Town.

GO »

Mission four

Mrs Kowalska is taking her two young children to school. Find 6 things on Mrs Kowalska's route to school that may be a problem for her, which would make her or her children feel upset, or things that would make them feel happy.

Each mission (and related game events) is defined starting from the dimensions the concept of Social Mindedness

Conclusions and open-ended questions

- the family cultural context represents a relevant field of orientation
- Students seems to negotiate social rules in order to achieve personal goals

Even if respect for the generalized other and recognition of diversity as value are declared as an "ordering principle", the qualitative section of the research has shown how this emotional disposition is not always consistent with the stated action. Social desirability is always "lurking"

Even if respect for the generalized other and recognition of diversity as value are declared as an "ordering principle", the qualitative section of the research has shown how this emotional disposition is not always consistent with the stated action. Social desirability is always "lurking"
