

BALERIA CAMPUS NEWSLETTER N° 2

23 July 2019

Baleria Campus in Italy (15-19 July, Gorizia)

"Tolerance, Solidarity, Respect and Justice are the main values of sport that the Baleria Campus wants to promote among the young people".

The Baleria Campus held in Gorizia from 15 to 19 July involved more than 90 young people in sports and recreational activities, carried out by ISIG in collaboration with the Municipality of Gorizia.

The Baleria project, implemented in collaboration with research centres and sports associations in six European countries (Slovenia, Italy, Greece, Portugal, Bulgaria, Germany) has involved on the territory of Gorizia a dense network of realities engaged in the promotion of the sport and its values.

Through the Baleria Campus activities, young people have understood the importance of the four values that the Baleria Project wants to spread to the local communities. Tolerance, Solidarity, Respect and Justice are the bases of the concept of Fair Play and Fair Life.

Tolerance

Solidarity

Respect

Justice

**Creative
workshop**

During the Baleria Campus, the activities proposed were very interesting and innovative. For example, exercises with a soccer rattle ball and obstacles, a blindfolded relay race, reinforced the understanding of the Baleria values so children can consider challenges in a playful and conscious way in integrating people with different needs.

In addition to these activities, ISIG organised and coordinated the creative workshop with the collaboration of Dinamic Gym Association, involving more than 60 children from 3 to 10 years. During the workshop children had the opportunities to play, draw and to make collages in order to represent the Baleria values.

Teamwork, collaboration and mutual aid are essential to achieve goals in both sport and in everyday life. The continuity of physical activity and sport practice must be ensured throughout life, in order to foster the full integration of everyone into the society.
